## Programme Specific Outcomes

After successful completion of **B.Sc chemistry** course student will be able to :

POS I	To explain nomenclature ,stereochemistry ,structures, reactivity and mechanism of the chemical reactions .
POS II	Gain the knowledge of chemistry through theory and practicals
POS III	Use modern chemical tools,models, chem.-draw, charts and equipments.
POS IV	Know structure- activity relationship.
POS V	Identify chemical formulae and solve numerical problems.
POS VI	Develop research –oriented skills .
POS VII	Make aware and handle the sophisticated instruments equipments.

## B.Sc-I chemistry course outcome

### Semester I

#### Paper No I (Inorganic Chemistry)

Learning Outcomes :

By the end of the course, the students will be able to :

CO1	The student will understand learning various physical and chemical properties of s block element
CO2	The student will get the knowledge of hybridization and geometry of different molecules with help of VBT
CO3	The student able to group the chemical compounds aromatic and non-aromatic category
CO4	The student will get the knowledge formation of bonding ,ant bonding and non-bonding molecular orbitals with MOT

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science  
Mahavidyalaya, Salgare,**

Date :

CO5	The student understand the atomic nature, quantum Numbers, electron filling rules and shapes of various orbitals.
-----	---

## Semester I

### Paper No II( Organic chemistry)

#### Learning Outcomes

By the end of the course ,the students will be able to:

CO1	The students will able to discuss the concept of stereochemistry.
CO2	The students will able to discuss the optically active or inactive compounds.
CO3	The students will able to discuss Fundamentals of organic reactions chemistry.

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science  
Mahavidyalaya, Salgare,**

Date :

CO4	The student will explain brief idea of types of chemical reactions and reactive intermediates.
CO5	The students will discuss the important properties of Cycloalkanes, Cycloalkenes and alkadiene their general methods of preparation.

## Semester II

### Paper No III (Physical chemistry)

### Learning Outcomes

By the End of the course, the students will be able to:

CO1	The students will understand concept of thermodynamics, chemical kinetics and Chemical equilibrium.
CO2	Students will be able to understand basic principles of thermodynamics

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science

Date :

CO3	The students will identify order and molecularity of a chemical reaction.
CO3	The student will explain the velocity and productivity of reactions.
CO4	The student will explain the advantages and disadvantages of Kinetic theory of gases

## Semester II

### Paper No IV( Analytical chemistry)

### Learning Outcomes

By the End of the Course,the students will be able to:

CO1	The students will explain the cause of water pollutions and their control
-----	---

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science

Date :

CO2	The student will explain applications of some important chromatographic methods for the separation of various components in industrial processes.
CO3	The student will get the knowledge of Physical and Chemical analysis of Water.
CO4	The student will get the knowledge Fertilizer analysis
CO4	The students will able to discuss the basic concept of titrimetric analysis.

### Semester III

### Paper No V( Physical chemistry)

### Learning Outcomes

**By the end of course the students will be able to:**

CO1	To provide the students with detailed knowledge and understanding conductivity and transport number of the aqueous solutions with different applications.
-----	---

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science

Date :

CO2	To provide a student with good knowledge of about surface tension viscosity and refractive index.
CO3	The student will able to understanding surface phenomena at the heterogeneous surfaces
CO4	The student will get the knowledge of various nuclear phenomena and measurement of nuclear radiation.
CO5	The student will able to Learning and understanding the knowledge about third order reaction and series of reaction rate

### Semester III

### Paper No VI ( Industrial Chemistry)

### Learning Outcomes

**By the end of course the students will be able to:**

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

## Vitthal (Daji) Patil Arts, Commerce & Science Mahavidyalaya, Salgare,

Date :

CO1	The students will able to understand the basic concepts and concentration terms, distinguish between classical and industrial chemistry.
CO2	The students will able to understanding the process of corrosion and knowledge of prevention from corrosion
CO3	The students will able to discuss chemical nature and cleaning action of soap.
CO4	The students will able to discuss the knowledge of some unit operations
CO5	The Students will understand knowledge of Indian paper industry

### Semester IV

### Paper NO VII ( Inorganic Chemistry)

### Learning Outcomes

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science  
Mahavidyalaya, Salgare,**

Date :

**By the end of course the students will be able to:**

CO1	The student will get knowledge and understanding basic concepts about coordination complexes and their applications block elements.
CO2	The student will understand the nature, properties and applications of P-block elements
CO3	The student will get the knowledge about application of Chelates in analytical chemistry
CO4	The Student will learn the basic knowledge about qualitative analysis of inorganic compounds
CO5	The Student will be capable of understanding the properties of 3d series elements

**Semester IV**

**Paper No VIII (Organic Chemistry)**

**Learning Outcomes**

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science  
Mahavidyalaya, Salgare,**

**By the end of course the students will be able to:**

<b>CO1</b>	The student will understand the properties, reactions and uses of acids in daily life
<b>CO2</b>	The student will learn the basic knowledge about amines and diazonium salt
<b>CO3</b>	The student will understand the properties of glucose , fructose ,sucrose ,starch and cellulose
<b>CO4</b>	The student will understand prepration ,Mechanism and Applications of aldehydes and ketones
<b>CO5</b>	The students will able to discuss the concept of stereochemistry.

## Semester V

### Paper No IX (Inorganic Chemistry)

### Learning Outcomes

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science  
Mahavidyalaya, Salgare,**

A/p.Salgare, Tal : Miraj, Dist : Sangli, Pin 416 418.

**By the end of the course, the students will be able to:**

CO1	Students will able to study of non-aqueous solvent is important to learn all chemical properties of solutes and from the research point of view
CO2	Students will able to discuss the Organometallic chemistry.
CO3	Students will able to understanding the metal ligand bonding in transition metal complexes and their applications in industrial word.
CO4	The students will capable of understanding the topic deals with the synthesis and application of semiconductor and super capacitors in electrical and electronic device.
CO5	The student will get knowledge and understanding the classification, types, mechanism and application of catalyst in industrial field is explained

## Semester V

### Paper No X (Organic Chemistry)

### Learning Outcomes

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science  
Mahavidyalaya, Salgare,**

**By the end of the course, the students will be able to:**

CO1	The students will able to predict the structure of organic compound with the help of provided spectral data
CO2	The students will able to discuss the importance of spectroscopy in the manufacturing processes of industries. It has wide applications in Research and developments section of various industries. The students are able to understanding of magnetic non magnetic nuclei, shielding, deshielding, chemical shift splitting pattern.
CO3	The students will understand the concept and need of spectroscopy in chemical industry
CO4	The students will able to predict the structure of organic compound with the help of provided spectral data
CO5	The students will able to understanding of energy associated with electromagnetic radiation and its use in analytical technique

## Semester V

### Paper No XI (Physical Chemistry)

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science  
Mahavidyalaya, Salgare,**

## Learning Outcomes

**By the end of the course, the students will be able to:**

CO1	Students will able to understand concepts and applications of quantum mechanics
CO2	Students will able to understanding the term photochemistry, photochemical reactions and their applicability in day today life.
CO3	Students will able to understand the term spectroscopy and its application.
CO4	Students will able to understand definition and scope of solutions.
CO5	Students will able to understand the electromotive force and their application and uses. The students will able to understand the concept of analytical chemistry.

**Semester V**

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science

## Paper No XII (Analytical Chemistry)

### Learning Outcomes

**By the end of the course, the students will be able to:**

CO1	The students will able to understand the concept of analytical chemistry.
CO2	The students will able to understand the procedure of potentiometric titration and their aplication.
CO3	Students will able to understanding, working and application of optical methods as analytical tools
CO4	The students will understand the basis of ionic exchange and column adsorption chromatography, quality control practices in analytical industry or Laboatories
CO5	The students will understand the techniques of gravimetric analysis Students will learn the knowledge of instrumental analysis of alkali and alkaline earth metals elements

## Paper No XIII (Inorganic Chemistry)

**By the end of the course, the students will be able to:**

Shivaji University Kolhapur affiliated,  
Shri Siddheshwar Shikshan Prasark Sanstha, Salgare

**Vitthal (Daji) Patil Arts, Commerce & Science

### Learning Outcomes

**By the end of the course, the students will be able to:**

CO1	Students will able to understand the Pharmaceutical products and their uses.
CO2	Students will know electrophonic addition reactions and their applicability in day today
CO3	Students will able to understand concepts and applications of name reactions.
CO4	Students will able to understand definition and scope Natural Products
CO5	Students will able to understand the term reagents and synthetic applications

### Semester VI

## Paper No XV (Physical Chemistry)
